Church and Chariot Run

Sunday 9th December 2012

A Christmas Celebration

You are invited to attend, (with your car) this unique Church Service. You will discover some pleasant surprises as many of our members and their families participate in various ways throughout the Service. The "Car Club Choristers"

will again be singing. Afterwards, we will take a short drive to a nearby park for a BYO picnic lunch. Your family and people from other clubs are most welcome to attend. It is an off street static display of old cars in the Church car park.

Please ring Bronte Thomas on 8296 4886 if you would like to join the Choristers, or if you have any

family members or friends who would like to provide a musical item during the service.

Brighton Church of Christ, 65 Sturt Road, Brighton.

9:30a.m. Assemble cars and coffee.

10:30a.m. Church Service. Further details

Barry Thomas 8296 4160

2013 Calendars

Our 2013 calendar is now available. Due to the new design the cost this year is \$12 each and

\$14 (including postage if required). Orders will still be taken, payment, on placing your

order. They will be available at the Christmas party and the Christmas general meeting.

COMING EVENTS

Christmas Picnic 2012

Sunday 2nd December 2012

2012's CRC annual Christmas picnic will be held in the same venue as last year at Beefacres Reserve, near the Darley Road Bridge. Assemble at 10.15am at the CCC clubrooms for a 10.30am departure. On arrival at the reserve there will be various children's activities to entertain the children.

A Chicken lunch, plates, cutlery, serviettes and Christmas gifts for children under 12 years old who attend, will be provided by CRC.

Please bring your own chairs, tables and drinks.

Cost per family is \$10.00 (2 adults only + children under 12) or \$5.00 for a single.

Members please bring a large salad or sweets to share.

Father Christmas will visit during the afternoon. There will be a list circulating at the September, October and November meetings. If you don't attend the meetings please ring with numbers for lunch and

children's names, sex and ages to allow time for purchasing and wrapping of gifts. Please let us know all details by the 14th November, 2012

PLEASE NOTE THAT GIFTS WILL ONLY BE GIVEN TO THE CHILDREN WHO ARE LISTED AND WHO ATTEND ON THE DAY

Campout in Peterborough

13th & 14th April 2013

Spend a weekend in Peterborough. There are powered sites, along with some on site vans, as well as a selection of cabin accommodation available at the Peterborough Caravan Park at reasonable prices, or motel accommodation is also available in the town. The agenda for the weekend is to do a tour of

the Steamtown Railway Complex and their Sound and Light show at night. An evening meal at the Retro 229 on Main Café situated in the old 1927 built cinema at a very country price. There is a motor bike museum along with other attractions to do on the Sunday before heading home. I have booked seating for 34 people for the Sound and Light show at this point, so please let me know as soon

as possible if you are interested so I can book more. Please make your own arrangements for accommodation as soon as possible because this is the start of the school holidays. Peterborough Caravan Park phone number is 08 86512545

Past Event Pit Stop for Men's Health

During our October meeting I spoke about a Men's Health check programme that the service group Rotary would be conducting at Civic Park, Modbury on Saturday 27th October 2012. Australian males are generally complacent about their health and often do not visit a doctor for a check up until something quite serious occurs. On many occasions early intervention can prevent serious health issues later. It is also a fact that many males care more about their cars than their own health.

With these facts in mind Rotary hosted the programme involving interesting cars on display and a fun way of checking basic health issues

that men neglect. A "pit stop" marquee was set up with doctors, nurses and trained volunteers to carry out fairly basic checks and advice was freely offered to all who entered the programme. Over one hundred males volunteered for the check up with quite a number issued with defect notices (especially in the waist measurements). Four were strongly advised to visit their GP as soon as possible, thus avoiding serious consequences if neglected.

Our club members responded as usual when I asked for their help in providing cars for our display which was designed to attract men to the area. We made quite a

spectacle with fifteen cars, with flags flying and a few engine hoods raised.

Promotional information about our club was sort by several Chrysler vehicle owners who I expect to see at future meetings.

Plans are in place to conduct a similar, but bigger event next year. Publicity will be available much earlier to enable better preparation for all who want to be involved.

A special thank you to those who so willingly attended the event, which I thought was a great day out and also provided a special service to the community.

Lindsay Gibb

FROM THE COMMITTEE

President's Message

There are only two more club functions for 2012; I hope you have enjoyed this year's calendar of

events. Runs have been planned until April 2013 and we hope they will interest you enough to participate by bringing out that car we haven't seen for a while.

The Jamestown Air show was a popular weekend away with 40 club members and friends enjoying a spectacular program of vintage and modern planes. Chris Howes had spent time planning this weekend so the club cars could be on display near the airfield and he achieved this and the display was well received.

Rose, wife of treasurer, Alan Driver was an inspiration as she struggled with her health issues over the last four years. There were happy times when she was able to attend club outings and she was always smiling. Her death on the 28/08/12 was peaceful and her funeral was a

special time, she was remembered as a devoted mother, grandmother and friend. The club extends our deepest sympathy to Alan, Frank, James and family.

It is time to consider how you might serve the club, nominations for the 2013 Committee positions can be made now. Vice President Dean Davis has informed the Committee that due to work constraints he is unable to stand as President in 2013. All positions need to be filled for the continued prosperity of the club.

As the result of the Special Resolution vote at the October General Meeting, the club has a new Constitution and 5 By-laws. Barry Maslin, the club's Public Officer has taken the documents to the Office of Business and Consumer Affairs for approval. These documents will be included in the 2013 Club Register. As the club is changing its membership year from calendar to financial, the committee decided that the fees for the next membership year i.e. January 2013 to June 2014 will remain unchanged.

The Annual Presentation dinner

was a successful evening, thanks to Ann and Greg Lind for their planning. Congratulations to Bob Haywood, Chris Howes, Trevor Kelley and Garry Williams on their awards. I have included all the details in a separate article.

As the year is coming rapidly to a close all the Breakfast run details are included in this magazine, please come and join us for this enjoyable outing.

Club Registration Day Sunday 03/02/13 is a must attend event, please follow the guidelines in this magazine to ensure you are complying with the new Code of Practice.

The National Rally in September 2013 will be in Warrnambool, hosted by the Victorian club, and is an event worthy of your consideration.

I wish everyone a safe and joyous Christmas, take care on the roads if you are out and about during the Christmas / New Year holidays and look forward to seeing you in 2013.

CLUB NOTES

Historic Registration and the Code of Practice

Our end of financial year is approaching (31st December 2012) and membership renewals will be issued in the January magazine. **There will not be a second reminder.**

For those members with vehicles registered under the Conditional Registration Scheme for Historic Vehicles, it is a requirement that you be a financial member of the club that issued your log book. If your membership lapses you no longer have a registered vehicle, despite the expiry date on your registration papers.

For those members who remain unfinancial beyond February 28th 2013 (note there is now only a 2 month period to renew) the club registrar is obliged to notify the authorities (DPTI) of your lapsed membership status. As a result you can expect a letter from DPTI advising that your vehicle is no longer registered. For those members who renew after February 28th 2013 an administration fee of \$20 in addition to membership fees will apply.

As has been discussed in recent months, there are changes to the Code of Practice requirements for historic vehicles. There is now a requirement that each historically registered vehicle will need a Statutory

Declaration presented with membership renewal, this declaration must be signed in the presence of a Justice of the Peace stating that the vehicle is eligible and complies with the conditions stated in the Code of Practice; no log book will be renewed without this document. A blank Statutory Declaration will form the reverse side of your membership renewal and you will need to have this completed and signed before your membership renewal is processed.

We will also be carrying out vehicle inspections, as required by the Code of Practice, to ensure the vehicles are compliant with these regulations. If you are attending the registration day please be aware that it will take some time to go through the revised process, also remember the people carrying out these tasks are all volunteers and will appreciate your patience.

If you have any concerns or doubts with these revised procedures please discuss them with myself or any of the committee members before the renewal day, as the workload on the day probably won't allow time for lengthy explanations.

For renewal of membership and historic registration entitlements

there are 2 options:

attend the club registration day on Sunday **February 3rd 2013** at the club rooms with your **membership renewal form, signed statutory declaration, current registration papers and current log book**; it will not be possible to process your renewal without all of these documents,

post with **enclosed cheque/money order, renewal form, signed statutory declaration, current registration papers, log book and stamped addressed**

envelope for return of your papers (enclose 4 x60c stamps if log book needs renewing) to:

Ray Miels Memorial Breakfast Run

This run is the ideal way to start the club calendar of events for 2013.

Meet at the CCC Glandore at 07.30am for an 08.00am start on

Sunday 20th of January 2013, it will be a short suburban run to a leafy venue for breakfast.

Please bring everything you might want: BBQ's, food,

drinks, tables and chairs.

Why not bring out that rarely used car and get it inspected.

Cathy Woods 8165 3971

CLUB NOTES

Federation Meeting Report

Club Register

Following the October Committee Meeting a decision was made to publish a Register of club members and their vehicles in 2013. The Committee feels this is still a useful and worthwhile publication.

The annual club membership renewal form, to be found in the January 2013 club magazine, will include a tick box giving members the opportunity to inform the club that they wish their details to be **excluded** from the 2013 Register.

If club members leave the box blank it will signify that they are happy to be included in the 2013 Register.

CLUB NOTES

Excerpts from the Code of Practice

As mentioned some time ago at one of our general meetings, I thought it might be appropriate to publish and highlight certain areas of the Code of Practice which define the eligibility of our vehicles. Below I have copied the first of the items which dictate some of the regulations with regard to general eligibility, bodywork, paint and interior.

Some of you will be aware that in the past vehicles have been rejected, or had their registration cancelled, because of anomalies with paint and interior issues. Note that in Para. 8.3 when speaking of paint, interior etc. there is reference to "replacement components are not varied in any way from period specifications" further on in Para. 8.8 reference is made, when speaking of paint and trim fabrics "provided that paint scheme and colours, as well as interior trim fabrics are of a type and style current at the time of manufacture for the spirit of the period"

From this I would urge caution, or at least seek advice, if you are about to purchase, or restore a vehicle when considering paint and interior items.

8.2 It is the intent of the scheme that historic vehicles which meet the eligibility requirements for conditional registration maintain and preserve their historic

integrity. Replicas and reproductions of historic vehicles are not eligible. Historic vehicles must conform in all aspects to the period when the vehicle was manufactured and continue to represent a vehicle from that period.

8.3 The vehicle's bodywork, paint, interior, etc. must be in good condition, allowing for fair wear and tear, and original equipment manufacturers' replacement vehicle components are not varied in any way from period specifications, except as detailed in this section or as determined by the Federation of Historic Motoring Clubs, as an approved variation. Any initial or further variations made to the vehicle require an inspection to be conducted by the club's authorised person, and if approved, noted on the MR334 and vehicle log book.

8.4 A vehicle meets all eligibility requirements if it continues to meet original equipment manufacturer specifications, including documented original equipment manufacturer, or the original equipment manufacturer's authorised dealer at the time of delivery as a new vehicle, or where commercially available from a non original equipment manufacturer at the time of delivery of the vehicle, did not

affect the vehicle's warranty.

8.5 Non-performance enhancing accessories or safety equipment that does not detract from the historic integrity of the vehicle may be added without recording as a variation.

Historic Vehicle Bodywork

8.6 The shape of a vehicle's body, doors, mudguards, bonnet, boot etc. must remain the same as supplied from the original equipment manufacturer. Any replacement part must be identical to the original component but may be manufactured of an alternative material.

8.7 The bodywork of vehicles, which were sold in chassis form, must be of a type and style current at the time of manufacture for that period.

8.8 Modern equivalent paint and fabrics may be used provided that paint schemes and colours, as well as interior trim fabrics, are of a type and style current at the time of manufacture for the spirit of the period.

Here I have focused just on the paint / interior topic, please absorb the rest of the information regarding body work and accessories. Next time I will highlight transmissions, steering and brakes.

Chris Howes

Club Registration Day 2013

The annual registration day is on Sunday 03/02/12 from 10.00am until 2.00pm at the CCC Glandore.

Assessors will be available to assess your historically registered Car. You can pay your

membership fees and have your logbook updated or renewed.

Please refer to the article regarding your obligations for being a financial club member.

There will not be a second reminder for renewal of

membership.

A sausage sizzle will be provided.

Please call

Chris Howes 8165 3971 if you wish to discuss your membership.

PAST EVENTS

Steve Klotz Technical Information Session

Sunday September 16th 2012

Members had been invited to the home of Steve Klotz for a Spray painting Tutorial. It had been suggested to bring a chair, spray gun and morning tea if desired. As I have experienced few of these type events in the club in the past I was very interested.

Margaret had also decided as the ladies may not be interested they could spend the morning at our home doing 'Ladies things'. Marlene Gibb joined Margaret so

Ashley Farrow, Malcolm Curtis, Steve Klotz and Brenton Gibb watch John Goddard

Painted and repaired in the past. The practical, spray painting, was cleverly demonstrated using water in the gun and thus enabling us to appreciate the various settings and adjustments on the tool. General discussion, questions and queries followed in a sociable atmosphere over morning tea.

It was an educational experience for me. Since that morning I have revisited Steve for a follow-up and personally thank him for his time. Richard Tapp has photos on our site capturing the morning events

I travelled to Steve's Woodville home with Lindsay. A good gathering of members were very welcomed on arrival and Steve first pushed his Ford Pilot out of the spray booth to start to explain the value of panel and door alignment, overall body appearance etc. Using his immaculately clean spray booth as a lecture room and Steve being a teacher we were then treated to a lifetime experience of his craft. From paint stripping, rust, what can be done? Lining up panels, general maintenance including cleaning, polishing and touch up to finally, spray gun settings and practical.

As you can see it's a fair list and so much experience relayed to us.

Greg Newley Watched by Alan Driver Showing How it is Done

Steve through the years has developed a lot of his own tools and techniques to get excellent results from his efforts which were clearly visible in the photo album showing cars he has

very well. If interested take the time to view them.

PAST EVENTS

Vintage and Classic Vans Return to Tanunda

**Friday 31st August to Sunday
2nd September 2012**

A small group of CRC members joined fellow caravanners for a get together at the Tanunda Caravan Park. This was a follow up event after the successful weekend earlier in the year organized by Bob and Judy Freak. The same venue was chosen due to the co-operation and the hospitality given by the park management and the central location for most participants.

The happy hour on Friday afternoon was a chance to welcome everyone, Later a get together in the camp kitchen for tea with most people arrived and

settled in for the weekend.

Morning tea on Saturday morning was a chance to officially welcome everyone and show appreciation for the distances travelled. 26 vans took part with people coming from as far as Gippsland, Ballarat, Pinaroo and Yorke Peninsula.

The day's activities included a visit to the Bethany oval to be a part of "Old Car Day" and on returning to the park, vans were open for display for a few visitors who were aware and interested in the range of vans present.

An evening two course meal was

catered for by the local Barossa Ford Club. A pancake breakfast compliments of the park management on Sunday morning proved to be a good start to the day. This was followed by a raffle draw which had been run over the weekend to cover incidental expenses.

Organizers of the weekend get together, John and Gwenda Coombe along with Bob and Ellen Haywood thanked everyone for taking part and helping to make a most enjoyable weekend.

Bob and Ellen Haywood

PAST EVENTS

Gammon and Flinders Ranges

I made a late decision to join the campers on their trip through the Gammon Ranges. The first day was to Morgan via the dirt roads 170k. On arrival the campers set up camp and the cabiners set up their cabins. We all went to the pub for tea that night. Day two was Morgan to Yunta 244k again dirt roads. While driving and slowing down for the many cattle grids. I noticed when slowing and speeding up for grids, the VC began to cut out but it always started again. I came to one grid and I put my foot on the brake but the pedal went to the floor. Of course I took that cattle grid a bit fast, I rolled to a stop, I tested the brake pedal again and this time it grabbed, pushing my head into the steering wheel. I noticed that I had left the hand brake on! I released the hand brake and the further I drove the better the brakes got.

On arriving at Yunta we had to cross a train line and with a train coming. I decided that I wasn't crossing the track, as I didn't want to get stuck on the track if the VC cut out, 63 carriages later I headed off.

We all set up our tents for the next camp while Rick Frith started one

of the his many camp fires so I cooked tea, fried fritz, onion and baked beans. The next morning I had an 8 egg omelette because that is how many broke when a dozen fell off the table.

We then headed off to Wootool 280k away. Driving to Weetoolta we had to venture through a creek bed. The VC was a bit low, scraping and groaning, but it made it to camp. I had to go through that creek three times and made it each time.

Day four we headed off to Arkaroola 70k away for petrol. While there I had a quiet moment on a look out, remembering Rose Driver, as this was the day of her funeral. On a previous trip to Arkaroola, my son Brett and I, shared a bang up meal with Rose and Alan. On the way back to Weetoolta we stopped at Balcanoona Station for a shower. We had plenty of dirt to wash off after an extremely windy, dusty night. Trevor and Lorraine's tent zipper was broken so they certainly copped the dust.

Day 5 saw us off to Angorichina village 149k, via Blinman. On the way Bob Lemon broke an axle on his van. He had plenty of help, it

was removed and taken away for repair at Angorichina just on dusk. I shared a cabin with Graham Bailey and his sister Pam. After the windy night before we had a great clean night's sleep.

Day 6 we travelled to Rawnsley Park 122k, via Parachilna Gorge and Wilpena Pound. Lorraine broke an axle on her camper trailer and amazingly it was fixed with the aid of a green tree limb and tie down straps. Bob's axle broke again and it had to be re-welded. I ran over my right hand headlight surround, so I am on the lookout for another.

At Rawnsley park I shared a cabin again and the campers had another windy night. Next we were off to Argadells 123k on a dirt track. How does Trevor find these places? Rick had a problem when he missed a gear going up a steep hill.

I was invited out for tea that night with Trevor Kelly and Les Johnson. We made up a brew consisting of 2 cans of beef chunky stew, one can of Irish stew, one can of baked beans, one can of spaghetti, some fried onions and potato. Probably enough for four, but three

Camp site in the Flinders

managed to eat it all with a Wagon wheel and Monte Carlo for dessert.

Day7 we were off to Laura 149k and the final night. As I went to leave the car wouldn't start so after adjusted points I was able to get underway. I left the group at Quorn and headed down to Pt. Augusta. Seeing the Pichi Richi steam train on the way was a real highlight.

I had not been on the main highway long when after meeting a semi my bonnet, which must have been on the safety catch,

blew up. With the aid of an octopus strap and cable ties I got to Pt Germain. Then I noticed the temperature gauge was reading high so I had to unravel the cable ties to check the water which was normal. This time with the help of a local chap we wired the bonnet down. Back on the road I discovered an electrical fault while using the headlights, after turning them off the temperature gauge returned to normal. I arrived home safely after a reasonably trouble free and most enjoyable week. I enjoyed the company of my fellow travellers

and thank Trevor and Lorraine and the others who helped to organize the trip. A special mention to Rick Frith, the Fire Warden, David May for his expert knowledge on the subject of flies, Trevor Beythien for his navigation skills, Trevor Kelly, the ice and petrol man and Bob Lemon the axle expert. I also have to acknowledge the patience and organizational skills of Spike, who put up his tent and took it down, so expertly, every day.

PAST EVENTS

Gammon and Flinders Ranges (ctd)

My Great Experience

When my brother Graham asked if I'd like to go on the trip to the Gammon and Flinders Ranges I was very pleased for a couple of reasons. Firstly, it was a chance to revisit a stunning part of Australia. Secondly and more importantly it was a chance to get to know Graham better. This may sound strange but I left home when he was 13 and since then we have seldom lived in the same State of Australia. We were not quite strangers but had lots to learn about each other, so the prospect of sharing a journey such as this offered a fantastic

opportunity to fill in the gaps of the last 50 years.

I have never shared his obsession with old cars, for me a car is a means of getting from one place to another reliably and in a degree of relative comfort. So I was a little apprehensive as to how I would cope with his '29 Dodge Ute and sleeping in a tent. Some years had passed since I went camping so I took the opportunity to pre-book a cabin for a couple of nights. To my surprise both the ute and the tent were quite comfortable, except for the last night at Weetootla when I didn't sleep a wink because I thought the

tent would collapse in the high winds. The next morning I found out I fared better than some that night.

The first day was pretty easy, spending the night by the Murray at Morgan and enjoying a nice dinner at the Commercial Hotel.

Next day over mostly dirt roads to Yunta, where Graham had to get a split rear wheel rim repaired. It was interesting talking to the wife of the local RAA man about her life in this town where they are fighting the closure of the local school. The night was spent on the barren racecourse, sharing food

Part of the Group Stop for a Break

Graham and Pam's Camp Site

and yarns around a great fire.

Then on to Weetootla Gorge camp for two nights, via some stunning scenery and remote sheep and cattle stations. This city girl can't imagine living in such remote areas! Some of us did a side trip to Arkaroola which I found little changed since I was there in 2001.

Day 5 saw us at Blinman for lunch "Road kill Burgers" for us. The vehicles attracted much interest. This day was also bad mechanically for Bob and Pam Lemon when they twice broke a

PAST EVENTS

Gammon and Flinders Ranges (ctd)

stub axle on their old caravan. This bit of bad luck demonstrated to me the camaraderie of those in the club. There was no question that all would do whatever possible to help each other out. It also helped to make me understand why we didn't stop more often to appreciate the sights one never knew just what might go wrong mechanically and it's a long way to a garage! I was pleased to have time for a quick visit to the Prairie Hotel at Parachilna as I remembered the fabulous food there.

After the terrible windy night at Weetootla Greg Newley, Graham and I spoilt ourselves with a luxury cabin at Angorichina great views, black leather lounge, first shower in days.

Day 6 and we were off to Rawnsley Park via the stunning Brachina Gorge. Somewhere here the bush mechanics did their magic, replacing a broken spring on Lorraine and Trevor's trailer with a branch from a river gum!

Argadells was our destination on day 7. Here we were allocated a camp at Cockroach Valley where

we gathered around another roaring fire for our last meal around a campfire, the presentation of prizes to the quiz winners and to Lorraine and Trevor for all their hard work organising the trip. It was here that we said farewell to Naomi, Spike and their kids.

Day 8 felt like we were back in civilisation again mostly on sealed roads, coffee and quandong pies at Quorn and a very delicious meal at the North Laura Hotel. I can't say I missed the smoke of the

campfire that night.

Day 9 found us all going our own way back home. Graham tells me we did 975 miles of which about 670 were dirt.

I thoroughly enjoyed the experience and appreciate the welcome I was given by the club members. I also feel that Graham and I became good friends as well as siblings on this trip. For that I am very grateful.

PAST EVENTS

Jamestown Air Show

12th to 14th October 2012

With the promise of fair weather for the weekend, we left Adelaide, later than most, in the Dodge Phoenix with Roadmaster in tow. Heading to Jamestown the long way round, via Burra, discussing that we would probably not see anyone on the way, from the club. But 10 kms out from Burra we spy a 1929 De Soto 29K roadster that looked familiar. Yes Ashley and Margaret heading to Burra for the "Burra to Morgan Run"

A quick catch up and a good laugh, we were on our way again, passing through the recently snowed-on town of Hallett and across the hills into Jamestown where we checked ourselves for extra digits, fins or scales having passed by many wind turbines. Checking into our camping area we spotted other CRCSA members and after setting up soon had a coffee/happy hour going, with input from Chris on weekend activities.

Up earlyish on Saturday morning with the Tarcowie monster garage sale in mind, we soon get

a call from Cathy Woods that the monsters were all sold out. So into Jamestown main street and a walk around, looking at all the old buildings, many now in the process of being restored. The craft shop was an eye-opener with a large collection of old sewing machines, and big variety of quilt fabrics. Gary Williams decided that he would take us to the private collection of John Hunt consisting of 4 beautifully restored vintage cars. A Reo Flying Cloud, (named after a boat well known at the time,) a Ford Model A tourer, Chevrolet roadster and a Chevrolet tourer plus some steam and petrol engines he has restored. It was appreciated as they are a wonderful sight, as is their garden.

After a tour of the towns old houses by Trevor Beythien, we then headed out to the airfield to check out the planes etc. Dinner that night at Caltowie Hotel with around 38 people was a well organised catch up, with a selection to cater for all. Jenette Black served a cake for dessert with the birthday people of the week in mind and this was

appreciated by all, thank you.

Up very early again on Sunday, all meeting at the caravan park and heading to the airfield in a group so that we could all be parked together in an allocated site for our club. All went well, so all gathered together along fence line with chairs, cameras, binoculars, eskies and shelters and important amenities nearby.

With the airfield having been fully sealed, jets, like the L-39 Albatross and Sia Marchetti S-211 are now able to land and so we saw more aircraft than ever. The air show was brilliant, a truly spectacular experience, with around 40 planes, like the Hudson bomber, Lockheed L-12 Electra, RAAF Roulettes, Kittyhawks, Hornet, Fox, and Tiger moths. Chris Sperou performed many spectacular aerobatics and much, much more, a full programme was offered and delivered. We all went home with sore/stiff necks and sun kissed noses.

We stayed the night and set off the next morning with Lorraine and Trevor Beythien and Gary and Rhonda Williams, heading

PAST EVENTS

Jamestown Air Show (ctd)

across to Gladstone and down to Balaklava for lunch at the 'Pink' café. On coming back to the cars a note under the Beythiens windscreen wiper was from the local paper the 'Plains Producer' asking for permission to take a photo of the cars and caravans. Being helpful citizens we all lined up and became celebrities. You can catch us at the meetings for autographs.

A wonderful weekend was had by all I am sure.

Thank you Chris and Cathy for suggesting and organizing a fabulous weekend.

PAST EVENTS

2012 Annual Presentation Dinner

Saturday October 20th 2012

The Oakden Central at Hillcrest was again chosen as the venue for the annual dinner. This is an evening to celebrate individual achievements and have a little fun.

This year we were without Judy McNair as she was with her family in Victoria as they gathered after the sudden death of her precious grandson Kyle. She was certainly in our thoughts throughout the evening. There was also a little time to reflect on the passing of 4 club members since the last dinner, Margaret Winston, Lawrie Robertson, Ron Hincks and Rose Driver; they all had a special part to play in the special human fabric that makes up our great club.

The Ron McNair Memorial Trophy for club member of the year as voted by the members was awarded to Bob Haywood

Cathy Woods presenting Chris Howes with his Award

and it was certainly a popular choice. Bob wears many hats being editor, photographer, calendar compiler and willing committee member.

Chris Howes was the recipient of the President's Award and the Mitsubishi Motors perpetual trophy. I was told by one member it was "a gutsy choice but the right one"

Brenton Gibb Presenting Bob Haywood with his Award

This year has seen the introduction of a new Code of Practice for Historically Registered Vehicles and an updated Constitution and it all involves work and Chris has been extensively involved in the success of both of those issues.

Trevor Kelley was the winner of the Alan Toull Award as he is a shining example of what the club is about, restorations and his 1946 Fargo truck is perfect evidence. His restoration story has been in past issues of the magazine if you want to read the details.

The disaster award is always coveted and Garry Williams is

PAST EVENTS

2012 Annual Presentation Dinner (ctd)

certainly worthy. He has had an ongoing saga with his S Series Valiant after the Stansbury weekend and the gear box issues are only being resolved now.

A themed dinner allows for individual creativity and we were not disappointed with Greg Jansow and Marlene Gibb winning the best dressed male and female awards.

A fundraising raffle was held with the prize being a Mitsubishi Ralliart jacket, it was drawn at the dinner and the Leukaemia Foundation will receive the \$200.00 raised.

Ann and Greg Lind put together a lovely evening and the 70 members who attended certainly enjoyed themselves. Thanks again to all who contributed time and energy to make it a success.

Edithburgh Show n Shine

Sunday 30th September

We spent an enjoyable October long weekend in the Coobowie Caravan park to be a part of the Gala Day and "Show n Shine" at Edithburgh. A great selection of vehicles were displayed, including members of the MAPS club. We took our AP3 Chrysler

Royal and 1960 Adventurer caravan and displayed them with memorabilia from the era. They created quite a lot of interest with an estimated two hundred people looking in the van.

The weather improved remarkably by Sunday with the

event being very popular, attracting exhibitors from a wide area of the state.

We returned home Tuesday and would encourage members to put this event in the diary for a proposed run next year.
